After-Sales Service

Spares

Taylor's Spares service offers original Taylor parts compliant with BS EN ISO 9001 quality control and where appropriate certified to EN 840 European standards.

We offer an express service for stock items meaning that your containers are not out of action for longer than is absolutely necessary.

Refurbishment & On-site Services

Taylor's bin refurbishment service will increase the life of your steel bins and make your investment stretch further. We operate the UK's largest bin refurbishment facility capable of processing 40,000 bins per annum. We can provide on-site repair and refurbishment.

Taylor Continental™ Cage

Taylor Chamberlain

The Taylor Chamberlain is a safe, stable, durable replacement for Paladin bins, specifically designed for the storage and collection of waste generated in high rise domestic housing. It solves the problem of waste overspill in domestic chutes by fitting perfectly into housings without creating side gaps. Available in 720 or 940 litre capacities.

The bins are manufactured to our exacting standards using hot-dip galvanisation and offer the following benefits:

- Available in 720 litre or 940 litre capacity
- Option of recessed handles for narrow bin housings
- Option of flat back lids
